A fine Chinese export reverse glass painting of an interior scene, La Confidence from an engraving by by Jacques-Firmin Beauvarlet (1731-1797) after Charles-André Van Loo (1705-1765).

The original painting by Van Loo appears lost but it relates to another painted around 1747 of a lady in Turkish dress being served coffee, thought to show Madame de Pompadour. This example also has the ladies dressed à la Turque which was very fashionable at this time.
